Southern American cities like New Orleans, Nashville and Austin may get a lot of love, but Asheville, North Carolina, is coming in hot these days thanks to a thriving culinary scene of rising chefs with pedigreed backgrounds, a booming craft brewery business, eclectic arts and music offerings and quirky-cool sensibility. Plus, its serene Blue Ridge Mountains landscape proves why getting back to basics in this Appalachian neck of the woods is always a good idea. Home to a plethora of national forests and wildlife preserves—in addition to some of America’s oldest estates and factories turned swanky hotels and bars—there’s a little bit of everything. Here are 50 of the best things to do in the Land of the Sky.
